PERCENTAGE - 91 %

Town Higher Secondary School,
Kumbakonam.

TECHNICAL SKILLS

Frontend

- HTML
- CSS
- JavaScript
- Tailwind CSS
- TypeScript
- React
- Next.js
- Tanstack Query

Backend

- Prisma
- Better Auth
- Neon

AREA OF INTEREST

- Web Development
- Front End Development
- React Developer
- Full Stack Development

LANGUAGES

- Tamil
- English

PROFILE

Focused on creating clean, responsive, and user-friendly web interfaces through clear structure and thoughtful design, with a strong understanding of user interactions to improve the overall experience. Seeking an opportunity to work on real front-end projects and grow through hands-on learning.

PROJECTS

Sleeply

2025

Sleep Tracking Web App

- Built a full-stack sleep tracker using **Next.js**, **TypeScript**, **Tailwind CSS**, and **ShadCN UI**, with a clean and responsive design.
- Implemented secure authentication using **Better Auth** with Google and Email login, and handled email verification and password reset links using **Nodemailer**.
- Used **Prisma** with a **Neon PostgreSQL** database to save sleep records, check if a date already exists, update it, or create a new one.
- Added features to add sleep hours, select a date and hour range, update existing records, and delete sleep history.
- Used **Chart.js** to show best and worst sleep days with clear visual charts, and deployed the app on **Vercel** for fast performance.

VirtualR

2025

Modern Landing Page

- Created a modern SaaS landing page using **React**, **TypeScript**, and **Tailwind CSS** to practice advanced UI design and layout skills.
- Added clear call-to-action buttons like Sign In, Create Account, Start for Free, and Documentation to guide users effectively.
- Highlighted VirtualR's features such as drag-and-drop tools, real-time preview, built-in templates, multi-platform support, collaboration tools, and analytics.
- Deployed the project on **Vercel** for fast, reliable, and production-ready hosting.
